## Altosid IGR Mineral Tub

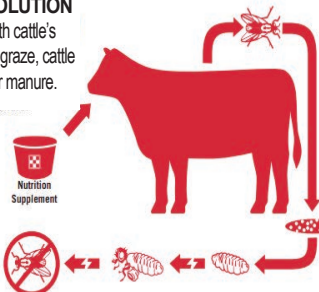

It's a fact! The constant biting of horn flies inflicts excessive stress on cattle. Fly counts can reach up to 2000 flies per animal, taking up to a gallon of blood in a 135-day fly season. Control horn flies all season with Altosid IGR Wind & Rain Mineral Tubs and you will see a difference in your herd. Begin putting Altosid IGR out in the spring. Continue feeding Altosid IGR throughout the summer until 30 days after the first frost to help prevent horn flies.

### WIND AND RAIN® STORM® FLY CONTROL MINERAL CONTAINS ALTOSID®

#### ALTOSID® IGR SOLUTION

Altosid is ingested with cattle's mineral or feed. As they graze, cattle disperse IGR via their manure.

Adult horn flies live 2 to 4 weeks, taking 20 to 30 blood meals per day.

In 1 to 2 days, eggs hatch into larvae. After 3 to 5 days, the larvae molt into pupae.

Altosid breaks the life cycle here, preventing pupae from molting into adults.

Female flies leave the animal for a few seconds to lay eggs in fresh manure less than five minutes old.

Also available in sacks!

# Farm & Ranch

## Make your voice known on supply chain

Please contact your two United States senators and your representative in the House at 202-224-3121 and urge them join the Rounds-Smith joint letter that calls for

**Jerry Nine**  
Woodward Livestock Auction  
Woodward, OK

fixing America's broken beef supply chain. Do it as soon as you can.

That number is a capitol switchboard and ask for your senators or representative. If the

cattle organizations, Farm Bureau and Farmers Union, plus the bank-

ing industry and others do not jump on board this then it is a giveaway and they are not working for you. I applaud Gov. Kevin Stitt and Secretary of Agriculture Blayne Arthur for jumping on board and supporting individual cattlemen. We have way too many politicians and people in positions that should be working for us and they are not doing so.

We received some great rains that covered a big area and it looks like the grass has tripled in growth in the past two weeks. We sold some very nice young pairs at the Woodward Livestock Auction for \$2,175 per pair. They were nice and gentle—two combinations in my opinion that are very important and will make you a lot of money plus make life easier for you and also

allow you to sell more pounds when you sell them if they are gentle.

I cannot and I will not give up on getting something done with manipulation of the cattle packing industry.

The American subsidiary of the world's largest meat processing company said May 31 it had been hacked, paralyzing some of its operations and impacting thousands of workers in Australia. The intrusion was detected May 30 forcing one of the leading producers of beef and pork in the United States to suspend affected systems and call in its IT staff and third party experts to deal with the breach.

One of the buyers at the sale barn always orders ice cream, sometimes two or three big dips or sometimes a malt. Another buyer,

or so-called friend, said, "Well, you know why we order ice cream? It's because there is no way he can get a brain freeze."

I went to my favorite fishing pond that a friend of mine owns but this time there was a sign that read, "Frog parking only. All others will be toad."

On a more serious note if you have someone that needs their spirits lifted have them pull up "True virtue—when you feel like giving up" from Life Church. It has a very good message whether you are down or not, if you can't get it, call me and pass it along to anyone who needs it.

*Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.*

**HOW MUCH DAMAGE CAN FLIES ACTUALLY DO?**  
The negative impact that lies have on the beef industry, during the summer, is staggering! Horn flies alone, cost the beef industry an estimated \$1 billion.

**-NEGATIVE IMPACT OF FLIES TO YOUR HEARD-**

- Flies are a threat to your bottom line.
- Bunching of animals and changes in grazing patterns.
- Cattle congregate in the driest, dustiest areas to help combat flies. As a result, cattle overgraze in those areas, and under-utilize other areas
  - Decreased milk production
- Reduced weight gain and reduced weight of weaning calves

**OUR FOCUS?**  
We focus our attention on helping ranchers protect their cattle against flies through the summer, thus reducing stress, helping with grazing behaviors and increasing milk production and weight gains.  
**Happy cows make for happy calves and happy ranchers!**

## Sedation Dentistry Calms Fears...

Take a *pill* and *snooze* through your dental appointment.

**F**or many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.

## Two Car Collision Hospitalizes Canute Man

June 2, 2021 - A Canute man was hospitalized Tuesday after being involved in a two vehicle collision west of Elk City in Beckham County.

According to the Oklahoma Highway Patrol’s collision report, the accident occurred at the intersection of the Interstate 40 Business road and State Highway 34, 2 miles west of Elk City, when while heading northbound in a 2020 Chevrolet Colorado on OK-34, 25-year-old Ty Cloud of Canute failed to yield at the stop sign at the intersection and pulled out in front of a 2017 Chevrolet Tahoe driven by 28-year-old Kaci Parks of Elk City. The Tahoe would strike the Colorado on the driver’s side.

Parks was transported by Elk City EMS to Great Plains Regional Medical Center where she was treated for head, trunk internal and leg injuries. She was released a short time later.

However, Cloud was also transmitted to the same hospital and admitted with trunk external, trunk internal, arm and leg injuries. He was last listed to be in stable condition.

OHP says both drivers were wearing seat belts at the time of the mishap.

## Former Felon Found with Weapons

June 6, 2021 - An Elk City man with prior felony convictions was arrested and charged recently after violating a protective order.

According to court records, 33-year-old Michael Glen Mitchell, who was arrested and charged in February with, among other things, assault and battery with intent to kill and kidnapping after attacking his girlfriend and not letting her leave her Elk City home.

Mitchell was out on bail, awaiting a preliminary hearing scheduled to take place in July.

The probable cause affidavit said that Mitchell was arrested on May 28 at the victim’s residence, after authorities were requested to investigate the suspect violating the protective order. While speaking with a detective, Mitchell allegedly confessed to driving the woman’s car so neighbors would not see his truck at her residence.

While speaking with the woman, she to would reveal to detectives that she had been in contact with Mitchell, had a meal together the day prior, and that he had stayed the night at her home.

While serving a search warrant at the home, police would find two firearms in the master bedroom, mail addressed to Mitchell, and a pizza box with the suspect’s phone number on it.

Mitchell would deny that the firearms were his.

Mitchell was formally charged this week with possession of a firearm after a former felony conviction and protective order violation.

Bond was set at \$25,000.

## Moore Reflects on First Legislative Session

June 4, 2021 - Fresh off his freshman year at the state capitol, District 57 State Representative Anthony Moore reflects on how his first year in session went.

During an appearance on KECO’s Exploring Energy show, Moore said overall he’s proud of what was accomplished, but feels there is more work to be done.

“It went really well. Overall I’d have to give it a grade of B+, just because I don’t want to start at an A so there can be room for improvement. I had 15 bills signed by the governor. That was probably three times more than I could ever dream I could have in the first year.”

Moore’s most proud accomplishment during the 2021 Legislative Session? Funding for education.

Saying \$211 million will go towards public education, and the passing of the Red Bud Equalization Fund will help rural schools. He says of that funding, roughly \$43 million will go towards rural schools. He says that could equate to be anywhere between \$200,000 and \$400,000 for some local schools.

Moore also said that the state corporate tax will see a decrease from 6% to 4% which could attract businesses to locate in Oklahoma. The personal income tax saw a 0.25% decrease as well.

**(DWC) DEEP WATER CULTURE STYLE GROW**  
We pride ourselves on a quality hydroponic grow process which ensure proper nutrients to our plants.

Why grow DWC? Faster growth - Plants grown in deep water culture intake more oxygen directly from the air than from the oxygen dissolved in water. DWC allows the roots to absorb large quantities of oxygen also allowing the intake of balanced nutrients. This leads to accelerated growth throughout the plant's life, bringing quality medical cannabis to the patients quicker. In DWC, growers have control over nutrients, which means growers can fix nutrient problems quickly. DWC growers are also least likely to have their garden attacked by bugs or pests (though it's definitely still possible). Therefore, it reduces the need for pesticides, allowing us to keep your medicine clean and sticky!! We believe DWC is the best way to grow cannabis.

**FEATURED STRAIN OF THE MONTH!**

**STORM CHASER**

STORM CHASER (hybrid) is a cross of Skywalker x Kasher Chem x Zookies, which makes it a wonderful heavy indica strain. It's great for insomnia, as well as anxiety, ADHD, bipolar disorder, migraines, and PMS. It's particularly effective at pain relief. The taste is pungent and sweet, with earthy tones. The indica stress relief of this versatile strain makes it a good choice for patients looking for some mental and physical relief. This strain is great for your mind and body! Thank you RED ROCK REMEDIES for this smooth and relaxing TOP SHELF medicine!

## Understanding What We Read

### DECEIT

Deceit: "The act or practice of deceiving; a statement, act or devise intended to mislead; fraud; trick" (Farlex Dictionary). It seems often that we read about how someone deceives another person or how someone cheats someone out of money. This happens because we, as human beings, have a tendency to trust we are being led in the right direction. Once we experience deceitfulness, we learn to be somewhat more cautious to prevent recurrence. Are you aware deceitfulness is taking place in the religious world and has been for many years in regard to various things which are contrary to God's word? Take what is heard often in churches regarding the "Immortal Soul". Did you know these two words never appear together anywhere in the Bible? To the contrary, the Bible does say that a soul can die in Ezekiel 18:20. Due to the error of Adam (and Eve), the death sentence has been put upon us (I Cor 15). Why are we so sad when a loved one dies? We are sad because death is our enemy (I Cor 15:26). God's word holds true death as our enemy, but there is hope. What happens to us when we die? ... for there is no work, nor device, nor knowledge, nor wisdom, in the grave, whither thou (the real you) goest" (Ecc 9:10). So due to age, accident, or illness, upon death we cease to think and are buried and eventually turn back to what we are made of--dust. But...is that it? "Thy dead men shall live,... shall they arise ... the earth shall cast out the dead"(Isaiah 26:19). "...that there shall be a resurrection of the dead, both of the just and unjust" (Acts 24:15). Is this what we hear preached at funerals? Why did Jesus warn us about being deceived in Matthew 7:15? Did he not get his wisdom and power from God? Does he know the following? "... their lies caused them to err" (Amos 2:4), or "Behold, I (God) am against them that prophesy false dreams (immortal soul?)...and do tell them, and cause my people to err by their lies, and by their lightness (recklessness or not proving it before putting it out)..." (Jeremiah 23:32). The point we are trying to make is this--when we have been deceived or cheated out of our money, we learn to avoid it again, but to be deceived into believing a lie that is not what is in God's words will be worst of all. The belief of a lie of the truth may be far more costly. Remember, we are required to "Prove All things" (I Thess 5:21) for God is very picky about his truth. Study.
