Altosid IGR Mineral Tub

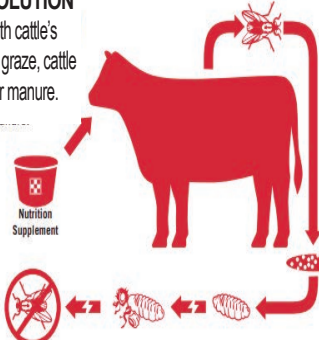

It's a fact! The constant biting of horn flies inflicts excessive stress on cattle. Fly counts can reach up to 2000 flies per animal, taking up to a gallon of blood in a 135-day fly season. Control horn flies all season with Altosid IGR Wind & Rain Mineral Tubs and you will see a difference in your heard. Begin putting Altosid IGR out in the spring. Continue feeding Altosid IGR throughout the summer until 30 days after the first frost to help prevent horn flies.

WIND AND RAIN® STORM® FLY CONTROL MINERAL CONTAINS ALTOSID®

ALTOSID® IGR SOLUTION

Altosid is ingested with cattle's mineral or feed. As they graze, cattle disperse IGR via their manure.

Adult horn flies live 2 to 4 weeks, taking 20 to 30 blood meals per day.

In 1 to 2 days, eggs hatch into larvae. After 3 to 5 days, the larvae molt into pupae.

Altosid breaks the life cycle here, preventing pupae from molting into adults.

Female flies leave the animal for a few seconds to lay eggs in fresh manure less than five minutes old.

Also available in sacks!

Farm & Ranch

Sometimes doing something nice takes effort

My youngest son and I were hauling cattle and I went with him on the first load to show him where we were hauling them.

Jerry Nine
Woodward
Livestock
Auction
Woodward, OK

I told him, “You ought to go by and get the lady that used to baby-sit you on your second load. She would take care of the boys until I got home from work.” I said she would like that and

she would love to get out of the house.

He said, “Dad I doubt she can get up in the pickup.” I said, “All you have to do is get behind and put a hand under each cheek and give her a push. Come to think of it just ‘goose’ her a little and you won’t have to push as much.” I’m just trying to help.

I was talking to a man who use to auctioneer for me and I mentioned that we had bought a gift for a man who had worked at the sale barn for a lot of years. He jokingly said, “Did I get the same gift when I left?” I said, “No, you did not get the same gift but when you left there was the same amount of joy when you left as there was when we bought him that gift.”

A little later I called him and said, “In case you don’t remem-

ber we did buy you a gift it was one boot.” His wife said he was laughing.

I want to remind producers to call 202-224-3121 and ask to speak to your senator or representative. In fact they will only let you talk to one or the other so make two phone calls. We have to demand they push the government do something about this packer rip-off. They need to break them like they did Ma Bell and while they are doing that not allow any foreign government to own over 10% of any food source. We can’t be that vulnerable.

At the breakfast table the other morning most of the guys were married. So I asked them what they thought was the key

to staying married. One said, “Yes ma’am.” Another said, “Big checkbook.” Another said, “Doing your part, take your shoes off at the door.” Another said, “Don’t say anything.” Another man said, “I have learned to stay outside working and out of the house.” Another said, “My wife left last weekend and came back and said this is house is filthy,” and he said, “I haven’t even been in here it’s just the way you left it.” And the last guy said, “How would I know the key to staying married—I’m divorced.”

Editor’s note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family’s ranch near Slapout, Oklahoma.

Woodward Livestock Auction Report

THURSDAY, JUNE 10, 2021

Receipts:5,033 Last Reported:2,597 Last Year:5,348

Compared to last week: Feeder steers steady to 4.00 higher. Feeder heifers mostly steady. Steer and heifer calves to lightly tested last week for a market trend but a stronger undertone was noted. Quality average. Demand was moderate. Supply included: 100% Feeder Cattle (50% Steers, 49% Heifers, 1% Bulls). Feeder cattle supply over 600 lbs was 92%.

QUALITY FLOWER, SHAKE & TRIM AVAILABLE

(DWC) DEEP WATER CULTURE STYLE GROW
We pride ourselves on a quality hydroponic grow process which ensure proper nutrients to our plants.

Why grow DWC? Faster growth - Plants grown in deep water culture intake more oxygen directly from the air than from the oxygen dissolved in water. DWC allows the roots to absorb large quantities of oxygen also allowing the intake of balanced nutrients. This leads to accelerated growth throughout the plant's life, bringing quality medical cannabis to the patients quicker. In DWC, growers have control over nutrients, which means growers can fix nutrient problems quickly. DWC growers are also least likely to have their garden attacked by bugs or pests (though it's definitely still possible). Therefore, it reduces the need for pesticides, allowing us to keep your medicine clean and sticky!! We believe DWC is the best way to grow cannabis.

FEATURED STRAIN OF THE MONTH!

STORM CHASER

STORM CHASER (hybrid) is a cross of Skywalker x Kasher Chem x Zookies, which makes it a wonderful heavy indica strain. It's great for insomnia, as well as anxiety, ADHD, bipolar disorder, migraines, and PMS. It's particularly effective at pain relief. The taste is pungent and sweet, with earthy tones. The indica stress relief of this versatile strain makes it a good choice for patients looking for some mental and physical relief. This strain is great for your mind and body! Thank you RED ROCK REMEDIES for this smooth and relaxing TOP SHELF medicine!

Jared Atha

Arapaho Man Accused of Cattle Rustling

June 14, 2021 - An Arapaho man was arrested recently after allegedly stealing cattle from local farmers.

According to a probable cause affidavit, 64-year-old Jimmy Helfer was charged with assault and battery with a dangerous weapon, possession of a firearm during the commission of a felony, larceny of domestic animals and threatening to perform an act of violence when, on June 4, authorities with the Custer County Sheriff’s Department responded to a call of livestock theft at the intersection of State Highway 33 and 183, four miles north of Arapaho.

When deputies arrived to the location, which was land owned by the suspect, they found Helfer there and was agitated. The court document would say that Helfer told authorities that it was he who was the victim of livestock theft, and that he would “take care of him” for committing the crime.

While talking with Helfer, the owner of the cattle came onto Helfer’s land to reclaim his cattle. This caused Helfer to get into his pickup and chase after men on horseback, who were rounding up the cattle. While pursuing Helfer through the field, deputies would observe Helfer come to a stop, get out of his truck, and attempt to reach for something from the back seat. The affidavit would say that before Helfer could grab anything, he was detained by authorities.

Deputies would locate a gun in Helfer’s truck.

Helfer was arrested and booked into the Custer County Jail. A preliminary hearing for Helfer is scheduled for July 9.

The cattle were returned to their rightful owners.

Wheat Harvest Looks Promising

June 11, 2021 - According to a recent survey by U.S. Department of Agriculture’s National Agricultural Statistics Service, Oklahoma producers are expected to harvest a little over 105 million bushels of wheat this year.

The estimate is based by two surveys done by the USDA’s Southern Plains Regional Office.

This year’s production is a 1% increase from the 104 million bushels harvested last year. The forecast, though, is down 2.7 million bushels from the forecast in May, according to the statisticians.

They also report that yield is forecast to be 39 bushels an acre, down one bushel from last year.

Oklahoma Wheat Commission said in its harvest report released Wednesday that harvest is underway in southern parts of the state, although rain has hampered the effort with a large portion of Tillman County receiving half to 3½ inches of rain late Sunday evening and early Monday morning.

Yields in Southwest Oklahoma have been favorable, according to the report, ranging from the mid-30s to the mid-60s. Test weights have been favorable as well, according to the report, with some parts of Washita, Kiowa, and Caddo counties seeing weights of 65.5 pounds per bushel. Wheat must register at least 60 pounds per bushel to command the best price.

Producers were hoping warmer, drier weather would lower moisture ranges and allow them to get into fields soon, according to the report.

Harvest in Oklahoma usually starts in the south and works its way up toward the Kansas line.

Wheat harvest in the state has been up and down for the past 10 years, ranging from a high of 154.8 million bushels in 2012, to a low of 47.6 million bushels in 2014, when it was severely impacted by drought, then too much rain at harvest time.

Yields, too, have varied, from a high of 40 bushels an acre in 2019 and 2020, to a low of 17 bushels an acre in 2014.

HOW MUCH DAMAGE CAN FLIES ACTUALLY DO?
The negative impact that flies have on the beef industry, during the summer, is staggering! Horn flies alone, cost the beef industry an estimated \$1 billion.

-NEGATIVE IMPACT OF FLIES TO YOUR HEARD-

- Flies are a threat to your bottom line.
- Bunching of animals and changes in grazing patterns.
- Cattle congregate in the driest, dustiest areas to help combat flies. As a result, cattle overgraze in those areas, and under-utilize other areas
- Decreased milk production

• Reduced weight gain and reduced weight of weaning calves

OUR FOCUS?
We focus our attention on helping ranchers protect their cattle against flies through the summer, thus reducing stress, helping with grazing behaviors and increasing milk production and weight gains.
Happy cows make for happy calves and happy ranchers!

Sedation Dentistry Calms Fears...
Take a *pill* and *snooze* through your dental appointment.

For many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.

Understanding What We Read

FOR STUDENTS OF THE BIBLE

Death Is an Enemy

As the Bible teaches, death is man's enemy (1 Cor. 15:26). However, the opposite is What you hear at some funerals today. Don't we have a natural instinct to fight disease and sickness in an attempt to prolong life as long as possible? To understand death, let's look at life: It's composed of activity, thought, motion, etc. Death is the total opposite state. In death, there is no activity, thought, or motion. Solomon in his God-given wisdom, said: "There is no work, nor devise, nor knowledge, nor wisdom, in the grave, whither thou goest (Ecc. 9:10)." Plain and simple—there is no activity or thinking process for those that are dead. Notice further, he plainly states where man goes when he dies—to the grave! There is no statement, whatsoever, that man goes anywhere else after he dies. In Isaiah, He clearly tells us what eventually happens to all of us: "Thou shalt die and not live (Isaiah 38:1)." To die is the opposite of living. Absolutely no mention of man having an immortal soul that goes to heaven. In fact you cannot find the words, "immortal soul" in the Bible. Jesus said: "No man has ascended up to heaven (John 3:13)." Why did He say that? Because he knew the scriptures. Wouldn't it stand to reason that teaching, supporting or believing anything contrary to the Word of God could leave us in a very precarious position with the Almighty God? What happened to mankind in Eden for believing a falsehood? Why did Jesus warn us: "Beware of false prophets... (Matt. 7:15)." Do you think it is possible that Jesus knows what believing something contrary to the word of God might do to us? Do you know there are some things that are required of us? "Study to show thyself approved...." (2Tim 2:15). The Bible does teach there is hope for all those that have died and are in their graves, Acts 24:15.
