Altosid IGR Mineral Tub

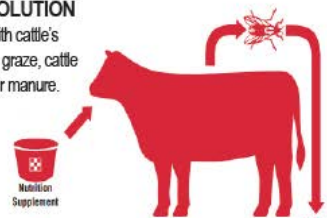

It's a fact! The constant biting of horn flies inflicts excessive stress on cattle. Fly counts can reach up to 2000 flies per animal, taking up to a gallon of blood in a 135-day fly season. Control horn flies all season with Altosid IGR Wind & Rain Mineral Tubs and you will see a difference in your herd. Begin putting Altosid IGR out in the spring. Continue feeding Altosid IGR throughout the summer until 30 days after the first frost to help prevent horn flies.

WIND AND RAIN® STORM® FLY CONTROL MINERAL CONTAINS ALTOSID®

ALTOSID® IGR SOLUTION

Altosid is ingested with cattle's mineral or feed. As they graze, cattle disperse IGR via their manure.

Adult horn flies live 2 to 4 weeks, taking 20 to 30 blood meals per day.

In 1 to 2 days, eggs hatch into larvae. After 3 to 5 days, the larvae molt into pupae.

Altosid breaks the life cycle here, preventing pupae from molting into adults.

Female flies leave the animal for a few seconds to lay eggs in fresh manure less than five minutes old.

Also available in sacks!

Rain is helping as are better cattle prices

Jerry Nine
Woodward
Livestock
Auction
Woodward, OK

Our area could use another rain but that is fairly normal for this time of year. Overall though it has been a good summer.

At least our feeder cattle we are selling are finally bringing enough dollars that you feel like you are making money. It is interesting where the feeder futures market is showing a sign of

optimism. Feeder cattle futures from November through March are at \$167 with April fat cattle futures at \$140 per hundred-weight. Again that does not compare to what the packer is selling our product for but it is better than it has been.

Woodward Livestock Auction

900 Lakeview Dr, Woodward, OK | Jerry Nine 800.442.5548

Our killing cow market wasn't quite as good this week but it is still better than what it normally has been.

A friend of mine just found out he has cancer and is only supposed to live 6 months. I think I gave him good advice. I said move to Wisconsin and marry the ugliest gal you can find. He said to me, "Will this make me live longer?" I said, "No, but you will feel like you did."

Ma and Pa were two old hillbillies living out on a farm up in the hills. Pa has found out that the hole under the outhouse is full. He goes into the house and tells Ma that he doesn't know what to do to empty the hole. Ma says, "Why don't you go ask the young'n down the road? He must be smart cause he's a 'college gradjyate.'"

So Pa drives down to the neighbor's house and asks him, "Mr. College Gradjyate—my outhouse hole is full and I don't know what to do to empty it." The young'n tells him, "Get yourself two sticks of dynamite—one with a short fuse and one with a long fuse. Put them both under the outhouse and light them both at the same time. The first one will go off and shoot the outhouse in the air. While it's in the air the second one will go off and spread poop all over your farm and fertilize it. The outhouse should then come down on the same spot atop the now empty hole."

Pa thanks the neighbor then drives to the hardware store buying just what he was told and gets a long and short dynamite stick. He goes home and puts them under the outhouse and lights them and runs behind a tree.

All of a sudden Ma comes out of the house into the outhouse. Off goes the first dynamite—boom—shooting the outhouse in the air. Then the second dynamite—poop going everywhere.

Pa races to outhouse and asks, "Ma, are you alright?" She pulls up her panties and says, "Yes, I'm fine but I'm sure glad I didn't pass gas in the kitchen."

Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma.

What Does My Church Teach?

(continued study of whom God and Jesus are Acts 2:22)

KJV 22 Ye men of Israel, hear these words; Jesus of Nazareth, a man approved of God among you by miracles and wonders and signs, which God did by him in the midst of you, as ye yourselves also know: 23 Him, being delivered by the determinate counsel and foreknowledge of God, ye have taken, and by wicked hands have crucified and slain: 24 Whom God hath raised up, having loosed the pains of death: because it was not possible that he should be holden of it. 25 For David speaketh concerning him, I foresaw the Lord always before my face, for he is on my right hand, that I should not be moved: 26 Therefore did my heart rejoice, and my tongue was glad; moreover also my flesh shall rest in hope: 27 Because thou wilt not leave my soul in hell, neither wilt thou suffer thine Holy One to see corruption. 28 Thou hast made known to me the ways of life; thou shalt make me full of joy with thy countenance. 29 Men and brethren, let me freely speak unto you of the patriarch David, that he is both dead and buried, and his sepulcher is with us unto this day. 30 Therefore being a prophet, and knowing that God had sworn with an oath to him, that of the fruit of his loins, according to the flesh, he would raise up Christ to sit on his throne; 31 He seeing this before spake of the resurrection of Christ, that his soul was not left in hell, neither his flesh did see corruption. 32 This Jesus hath God raised up, whereof we all are witnesses. 33 Therefore being by the right hand of God exalted and having received of the Father the promise of the Holy Ghost, he hath shed forth this, which ye now see and hear. 34 For David is not ascended into the heavens: but he saith himself, The Lord said unto my Lord, Sit thou on my right hand, 35 Until I make thy foes thy footstool. 36 Therefore let all the house of Israel know assuredly, that God hath made the same Jesus, whom ye have crucified, both Lord and Christ. w. This man, who was put into power by the predetermined plan and foreknowledge of God, they nailed up and murdered, and they used for their purpose men without the Law! But God would not allow the bitter pains of death to touch him. He raised him to life again—and indeed there was nothing by which death could hold such a man. When David speaks about him he says:”I foresaw the Lord always before my face, for he is at my right hand, that I may not be shaken; therefore my heart rejoiced, and my tongue was glad; moreover my flesh will also rest in hope, because you will not leave my soul in Hades, nor will you allow your holy one to see corruption (or turned back to dust)”. Army Worms Invading Western Oklahoma Lawns

August 16, 2021 - Typically with a wet summer comes green and luscious lawns in Oklahoma.

However there are some drawbacks.

According to Zack Henderson with the Beckham County OSU Extension Office, army worms are swarming the state thanks to a weather pattern this summer that closely resembles the southeast parts of the country.

“Army worms in our area are a little uncommon, especially in western Oklahoma. We’ve really had an influx of rainfall and heat this year. Extreme moisture and heat equals army worms. It creates the perfect environment for them and that’s why we’ve seen an absolute explosion of them. They’re usually hatching between July and September.”

Reports have come in throughout Oklahoma of swarms of army worms not only in fields but also in residential lawns. Henderson says a common household item can help a homeowner detect if their lawn has army worms or not.

“When we look at army worms in your lawn, the first signs you’re going to see are dead spots. That’s a red flag that you got army worm activity. Obviously a lot of folks can see them, but sometimes they’re living in that sub-soil just beneath the surface. One trick that I’ve been taught is to take a tablespoon of Dawn dish soap and mix it with a gallon of water, and then spray it across an area that you think is infected with army worms and they’ll rise to the surface.”

Henderson says if army worms are discovered in a lawn, the homeowner has two options in how to eradicate them: hire a lawn service to spray the lawn or apply an over-the-counter insecticide yourself. He does caution, however, that most products can be harmful to animals and advises to read the directions carefully.

Henderson urges anyone who has any questions about army worms to contact the Beckham County OSU Extension Office in Sayre at 580-928-2139.

Sayre Man Allegedly Threatens Grandmother By Way of Text

August 11, 2021 - A Sayre man was arrested recently after violating a protective order when he sent threatening text messages to his grandmother.

According to the probable cause affidavit for arrest, 37-year-old Patrick Ryan Carey was arrested on July 28 when the victim reported to deputies with the Beckham County Sheriff’s Office that she had been receiving text messages from a phone number that she believed to be from her grandson.

While speaking with the woman, she would receive more messages from the number.

The deputy would call the number a short time later, where the male subject who answered the call identified himself as being Patrick Carey. Later deputies would arrive at Carey’s residence to interview the subject. There Carey allegedly admitted that it was indeed him who sent the text messages to his grandmother.

Due to violating a previous protective order filed against him, Carey was arrested and booked into the Beckham County Jail.

He was charged on August 3 with planning, attempting, or conspiring to perform an act of violence – a felony, and violation of a protective order.

A Beckham County judge set Carey’s bond at \$20,000 and ordered the suspect to have no contact with the alleged victim.

(DWC) DEEP WATER CULTURE STYLE GROW
We pride ourselves on a quality hydroponic grow process which ensure proper nutrients to our plants.

Why grow DWC? Faster growth - Plants grown in deep water culture intake more oxygen directly from the air than from the oxygen dissolved in water. DWC allows the roots to absorb large quantities of oxygen also allowing the intake of balanced nutrients. This leads to accelerated growth throughout the plant's life, bringing quality medical cannabis to the patients quicker. In DWC, growers have control over nutrients, which means growers can fix nutrient problems quickly. DWC growers are also least likely to have their garden attacked by bugs or pests (though it's definitely still possible). Therefore, it reduces the need for pesticides, allowing us to keep your medicine clean and sticky!! We believe DWC is the best way to grow cannabis.

FEATURED STRAIN OF THE MONTH!

STORM CHASER

STORM CHASER (hybrid) is a cross of Skywalker x Kosher Chem x Zookies, which makes it a wonderful heavy indica strain. It's great for insomnia, as well as anxiety, ADHD, bipolar disorder, migraines, and PMS. It's particularly effective at pain relief. The taste is pungent and sweet, with earthy tones. The indica stress relief of this versatile strain makes it a good choice for patients looking for some mental and physical relief. This strain is great for your mind and body! Thank you RED ROCK REMEDIES for this smooth and relaxing TOP SHELF medicine!
