- Improve overall health on cows and calves
- Saves pressure on fences

"Mike has a simple formula to prove the value of the oiler. 'If the cattle aren't swatting flies, they are eating grass, making milk and putting pounds on the baby. And if the babies aren't swatting flies, he's retaining that weight to go to market with. That's all you've got to sell is weight of the cow.'"

Sorting heifers can bring unique challenges

Jerry Nine
Woodward, OK

I have heard for a lot of years that if you have a set of bred heifers and you decide to sort off the ones that you think will calve first that often there will be one in the not so close bunch that will calve first.

I had sold 14 bred heifers to a man who asked me to sort off five or so that

looked like they would calve any day. So as I did I kept looking and actually sorted 10 of the 14 that looked very close. Then a lady called a week later and said there is a baby calf on the wrong side of the fence where the four bred heifers were. I thought, well I don't think one of those four calved so perhaps that calf was from the cows across the road.

You know the story we all have more faith in our own judgment than anyone else does. So yes it was one of the four that had calved. So if any of you need me to sort off the heavy bred heifers then give me a call but simply take the not so close ones to the house instead of the heavy bred ones.

But now that I think of it at the sale sometimes

the vet gets his numbers mixed up too. So see I'm not the only idiot. But it's like a man told me not long ago. He said you are not the dumbest person in the world but you better hope that dumbest person doesn't die.

Good market

The cow and bull slaughter market is a lot better these past two weeks. And if you haven't paid attention the grazing market, whether weaned or not, is very good—you will be surprised how much a head or pound they will bring.

There are two guys that buy cattle at the sale barn every week. They were both at the truck stop in Woodward and were at the counter paying for what they had bought. One guy is a pretty big guy and I don't mean pretty. The other guy is half his size but you wouldn't call him skinny either. The guy at the cash register didn't appear to look like the sharpest cookie in the jar. Well let's just say he and I would be about the same.

So I walked up behind these two friends but said to the clerk, "Hey this big guy here put several things in his pocket." Then I said, "That is if you can tell which one is the big guy." The smaller guy said, "Well thanks a lot." So then I asked the clerk, "Do you all do strip search here?" The guy said, "I am out—I am out!"

"Editor's note: Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family's ranch near Slapout, Oklahoma."

WHITE DENTAL CARE

Drs. Mori & Teri White, DDS

Sedation Dentistry Calms Fears...
 Take a *pill* and *snooze* through your dental appointment.

For many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.
