WHITE DENTAL CARE

Sedation

Sedation Dentistry Calms Fears...

Take a ***pill*** and ***snooze*** through your dental appointment.

For many Americans, going to the dentist is a frightful event. If you are one of the 145 million people who avoid the dentist due to fear, we have the solution... Sedation Dentistry.

You can now experience your dental appointment through a totally relaxed and comfortable environment. With the help of Sedation Dentistry, you will wake up to find that your dental appointment is over and the restorations have been completed painlessly.

For those with a busy schedule, we can accomplish more dentistry in one appointment which means fewer visits to the dentist.

Sedation Dentistry is available for everything from simple restoration to the most complex procedures. We are very sensitive to our patients needs, especially those with high fear and apprehension. Now we can put an end to anxiety with this safe and wonderful technique of sedation.

We are proud to be able to offer Sedation Dentistry and offer hope to those who have been avoiding the dentist due to fear. If you would like to know more, call our team with your questions.

Finding a solution for illegal immigrants

by: Jerry Nine – Woodward, Okla.

About three weeks ago a friend of mine who originated from Mexico got stopped by a cop for an out-of-date license plate of which was on automatic renewal with his insurance company but had run out. He thought he was still insured.

I am all about departing all the gang-related immigrants and also any here just too lazy to work. When they opened the flood gates the United States inherited lots of losers and quite a lot that want to do harm to America. But for the ones here that simply want a better life for them and their families and willing to work hard and not get in any trouble such as a felony, I am for them being able to stay in the U.S.

They did do something illegal by crossing the border without proper documentation. So, in my opinion, fine them \$10,000 for coming here illegal and if they work here the next 10 years straight without any major issues then after the 10 years let them at that point apply for citizenship.

Oh, you will hear others say and even the government say they are taking American jobs away from them. I challenge you in my area to find a white boy or any other American that really wants a job and cannot find one. All the ones that want to work have jobs.

Look around at any group of workers whether it is the highway department, cement crews, fence builders and the list goes on, and you find very few white

people doing that kind of work. Mainly because it is work. And a lot of their wives are good care takers for the elderly. They also gladly work in restaurants and lots of other jobs. If you agree contact your politicians to push that idea higher up the ladder.

A woman has sued a hospital stating that after recent treatment her husband has lost interest in bed. The hospital in their defense stated—all we did was correct his eyesight.

My neighbor says he’s divorcing his wife. He said that woman has a whale tattooed on her rear. I said that is a silly reason to get divorced. He said dude it was a dolphin when we got married.

Editor’s note: The views expressed here are the author’s own and do not represent the view of The Penny News. Jerry Nine, Woodward, Oklahoma, is a lifetime cattleman who grew up on his family’s ranch near Slapout, Oklahoma.

Port of Entry Officer Injured After Interstate Crash Near Texas State Line

July 13, 2026 • Beckham County, OK – A port of entry officer was injured Sunday, July 12, after the officer's vehicle was struck from behind while working in the area of the Oklahoma Port of Entry just east of the Texas state line.

Beckham County Sheriff Derek Manning said the officer works as a port of entry officer, a position responsible for inspecting commercial trucks and other vehicles entering Oklahoma. He noted there are two types of port of entry officers, with some working for the Oklahoma Department of Public Safety and others for the Oklahoma Corporation Commission. Manning believes the injured officer was employed by the Corporation Commission.

"Their job is to stop and inspect trucks and vehicles," Manning said. "They do it out there at the port of entry, which is just inside the state line, just this side of Texas. Those officers also work around that area."

According to Manning, the officer's vehicle sustained heavy damage after being struck from behind.

"I saw a photo of the vehicle and it was pretty heavily banged up," he said.

The officer was transported to a hospital following the crash and was released later that day.

"I'm told he was released yesterday," Manning said. "I hope he's doing well. I know he does have some injuries that he's going to have to work through. Our prayers go out to his family, and we hope he recovers rapidly and heals up okay."

Manning said the crash serves as another reminder

of the dangers faced by first responders and other roadside workers.

"It just emphasizes the danger of working traffic out on the interstate," he said. "In those areas there are just a lot of things that can happen, and a lot of them are bad and dangerous."

Drawing from his own experience, Manning said he has been struck by vehicles while working.

"I've been hit on the interstate before from behind during an ice storm," he said. "Fortunately, the speeds were lower and I wasn't injured, but there was a person outside the vehicle at a crash scene who was injured as a result."

He also recalled being struck while making an arrest in a parking lot.

"I've been hit from behind once before in a parking lot while we were trying to arrest another drunk in a bar parking lot," Manning said. "The flashing lights don't guarantee safety for the officers out there."

Manning urged motorists to remember Oklahoma's Move Over Law and to use extra caution whenever emergency or service vehicles are stopped along the roadway.

"This is a reminder for people," he said. "If you're on the highway and you see flashing lights, especially if it's law enforcement, but even if it's a wrecker or the Department of Transportation, those guys are out there doing a job too. They have families and people who care about them, and they're out there risking themselves on the side of the road way. If you see lights, slow down and if you can, pull over."

Two Arizona Men Injured in I-40 Crash East of Hydro

July 13, 2026 • Caddo County, OK – Two Arizona men were injured Friday night after a vehicle left Interstate 40 and crashed into a creek bottom east of Hydro, according to the Oklahoma Highway Patrol.

The crash happened at approximately 8:24 p.m. Friday, July 10, on westbound Interstate 40 near the 92 mile marker, about 11.5 miles east of Hydro.

The Oklahoma Highway Patrol reported that a vehicle driven by 73-year-old Edward L. Sweeten of Peoria, Arizona, was traveling west on I-40 when it left the roadway to the right for an unknown reason. The vehicle traveled through a fence before going over a large embankment into a creek bottom on the north side of the interstate.

Sweeten and his passenger were

trapped inside the vehicle and were extricated by firefighters and EMS personnel. Both sustained injuries in the crash.

Troopers reported that all occupants were wearing seat belts at the time of the collision.

The cause of the crash remains under investigation by the Oklahoma Highway Patrol.
